

“NOW PAY ATTENTION 007”

The Prodigy 2011 Tackle Base. You've never been better equipped.

Be the first to own this brilliant new piece of kit from those clever chaps at Greys.
A modular Klip-Lok® box that organises all your end tackle in one go.

It's even got a slot for the revolutionary Prodigy Rig Board® so you can keep ready made rigs on hand to switch in seconds. And you can either collect the components over time, or buy it fully-loaded. Okay, it doesn't blow up if someone tries to have a sneaky peek inside it, but we're working on it...
